As a follow up to the auction report by club treasurer Carl Adams at the November meeting, our most recent auction and flea market netted the club \$733.00. Holding two of these auctions per year just about covers our yearly grass cutting costs, which keeps your membership dues low!

We will be voting on a potential new member at this month's meeting. He is Bob Reihms from Apollo, PA.

The Westminster Aero Modelers, from Westminster, MD, have invited one and all to their annual flea market on February 10, 2024. I've included the full sized registration form as a separate attachment to this email, in case you wanted to reserve a table.

Steve Rothschild writes of this event and his club:

Dear Club Officer,

The Westminster Aero Modelers would like to invite your club members to attend our Annual Flea Market on February 10, 2024. We are located in Westminster, Maryland at the local VFW Hall. Our tables sellout every year and there are always some nice bargains. We have food for sale and a 50/50 raffle. I think everyone has a good time. We are a friendly and helpful club.

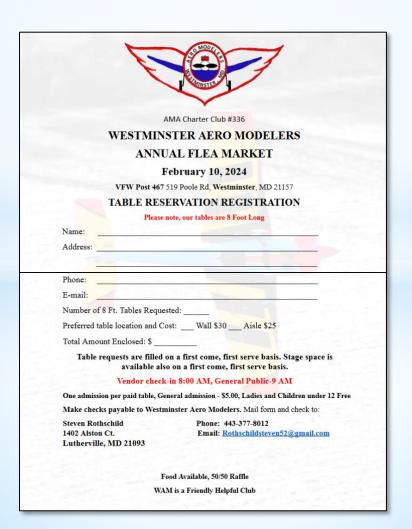

Please see the attached registration form for those who would like tables.

I hope to see many of your members at our event.

Sincerely,

Steve Rothschild 443-377-8012

# Photos from the November Meeting

At the November meeting, Walt Greene showed his Rudder Bug, which was originally designed in 1950, and incorporates a lifting tail section. Walt's step father built one in 1952, and only had rudder; there was no elevator or throttle. The model you see here is a much more recent build, completed by Walt himself, and does include elevator and throttle.
